Overview

Simon has been primarily working as a Director of Photography on TVC's for the last 5 years. He also gets regular work on TVC's as second unit/pack shot DOP, additional camera operator, timelapse/areal cinematographer and Libra/remote head operator.

In addition to TVC's Simon has worked on Music Videos, Short Films, Network Television promos and title sequences.

Simon has shot with most formats; 35mm, 16mm, HD, Digital Betacam, Mini DV/HDV and the new 3,000 fps HD camera.

For 12 years prior Simon worked as a clapper/loader, focus puller and camera operator on feature films, documentaries, music video clips and television drama.

A few of Simon's recent clients include McDonalds, Kellogg's, Sony, Olympus, Toyota, Sanitarium and News Limited.

While Simon has been trained and has worked with some of the most respected and professional 'old school' DOP's he has developed his own style. He likes to work quickly in a calm, professional manner with an easy going, no 'drama' approach. He believes the industry can be challenging enough without any added on-set provocation. He also likes to enjoy going to work and believes a harmonic crew is a happy crew, which should translate into a good end result for all.

Simon also owns his own Arriflex 435 35mm camera kit complete with Zeiss Ultra Prime lenses.
